

CORONAVIRUS (COVID-19)

Managing your repeat prescriptions during the COVID-19 pandemic.

We can all play our part to support our GP practice and community pharmacy during this pandemic by:

- ✓ **Ordering your usual length of treatment**
- ✓ **Order your repeat prescriptions as you normally do**
- ✗ **Not over ordering on your repeat prescriptions**
- ✗ **Not asking for an increased supply of your medicines, if you don't need it**
